New Roads to Discovery:
Avances recientes en ciencias biomédicas

Date/Fecha: November 25th 2015 / 25 de Noviembre de 2015

Venue/Sede: Pontifical Catholic University / Pontificia Universidad Católica Argentina. Buenos Aires, Argentina

Agenda:

8:00 - 8:15  Registration

8:15 - 8:30  Welcome
Miguel Angel Schiavonne MD, PhD. Dean, Faculty of Medicine, Catholic University (UCA), Buenos Aires, Argentina.

8:30 - 9:10  Value of Scientific Networks in Clinical Research
Santiago Perez-Lloret MD, PhD, CPI. Institute for Cardiology Research, National Research Council (CONICET). Professor of Epidemiology, Medicine School, UCA. Buenos Aires, Argentina.

9:10 - 9:50  Communicating risks and benefits of pharmaceutical projects
Donald Mattison MD, MS. McLaughlin Centre for Population Health Risk Assessment, University of Ottawa. Canada.

9:50 - 10.30 Assessing the Efficacy of Melatonin to Curtail Benzodiazepine / Z Drug Abuse: From Benchmark to Bedside
Daniel Cardinali MD, PhD. Research and Teaching Department, School of Medicine, Catholic University. CONICET, Buenos Aires, Argentina.

10:30 - 10:45  Break

10:45 - 11:25 Challenges in the organization of a research unit in the clinical setting
Marcelo Merello MD, PhD. Neuroscience Department & Movement Disorders Section, Raul Carrea Institute for Neurological Research. Professor of Neurodegenerative Diseases, UCA and CONICET. Argentina.
11:25 - 12:05 What should we know on intravenous iron toxicity?
Jorge Toblli MD, PhD. Nephrology Department, Hospital Alemán. Professor of Medicine, School of Medicine, University of Buenos Aires (UBA) and CONICET. Argentina.

12:05 - 12:45 An Argentinean Investigator-initiated multicentre, international, randomized study: The case of the GARDEL trial"
Pedro Cahn MD, PhD. Infectious Diseases Division, Hospital Fernandez. Professor of Infectious Diseases, Medicine School, UBA. Fundación Huesped. Argentina.

12:45 - 13:45 Lunch

13:45 - 14:25 Pharmacoepidemiological studies about drug safety in Parkinson’s Disease

14:25 - 15:05 Factors related to the occurrence of Adverse Events in Parkinsonian syndromes
Maria Verónica Rey PharmD. Department of Pharmacology, University Paul Sabatier, Toulouse. France.

15:05 - 15:20 Break

15:20 - 16:00 Applications of the High Resolution Microscopy to study biomedical problems
Francisco Capani MD PhD. Institute for Cardiology Research, CONICET, Buenos Aires. Argentina.

16:00 - 16:40 Diagnostic-based risk adjustment tools in administrative database research: why comorbidity matters

16:40 - 17:00 Concluding remarks
Santiago Perez-Lloret
